OPENING CEREMONY

The international logitrans Transport Logistics Exhibition will bring industry professionals together in Istanbul for the 19th time in 2026. As one of the key meeting points connecting the logistics networks of Europe and Asia, logitrans brings together local and international representatives from the transport, logistics and supply chain sectors under one roof.

The exhibition will officially begin with the Opening Ceremony, attended by industry representatives and invited guests.

LOGISTICS IN A WORLD OF DISRUPTION: CONNECTING MARKETS, MANAGING RISK, BUILDING RESILIENCE

ORGANIZER: *LOGISTICS PARTNERS – GLOBAL ADVISOR NETWORK*

Global logistics is operating in an increasingly complex environment shaped by geopolitical uncertainty, changing trade routes, climate-related risks and growing pressure on international supply chains.

This forum explores how companies can respond to these challenges through international cooperation, strong regional networks and local market expertise. Representatives from Germany, Türkiye and Egypt will discuss how changing trade flows are affecting different markets, how businesses can manage risks and build more resilient supply chains, and why trusted partnerships across countries are becoming increasingly important.

Drawing on practical experience from different regions, the discussion will focus on the role of cross-border cooperation, local knowledge and international business networks in connecting markets and identifying new opportunities in a changing global logistics environment.

Speakers:

Stefan Schröder
Ceo, LNC LogisticNetwork Consultants GmbH, Germany

Dr.Ergin Büyükbayram
Ceo, Logistics Consulting Services, Türkiye

Ahmed El Dahshan
Ceo, KML - Khedivial Marine Logistics SAE, Egypt

SPAIN AS THE GATEWAY BETWEEN TURKIYE AND EUROPE: BUILDING INTEGRATED LOGISTICS ECOSYSTEMS FOR GLOBAL TRADE

In a rapidly changing global trade environment, Spain has consolidated its position as one of Europe's leading logistics platforms, connecting major maritime routes and serving as a strategic bridge between EMEA, Asia and the Americas. Supported by a network of highly connected ports, modern transport infrastructure and strong international trade links, Spain offers significant advantages for companies seeking efficient access to global markets.

At the same time, Türkiye has emerged as a key logistics and manufacturing hub at the crossroads of Europe, Asia and the Middle East, playing an increasingly important role in regional and global supply chains. The growing trade and investment flows between Spain and Türkiye create new opportunities for closer cooperation, leveraging the strengths of both countries as gateways to their respective regions.

This session will explore how Spanish ports, logistics operators and supply chain partners are addressing current challenges, strengthening resilience and sustainability, and enhancing connectivity across strategic trade corridors. The discussion will also examine how businesses can benefit from partnerships, innovation and multimodal transport solutions to navigate an increasingly complex and competitive international landscape

Moderator:

José Manuel Freijo
Commercial Attaché at the Spanish Embassy in Türkiye

José Manuel Freijo is Commercial Attaché at the Economic and Commercial Office of the Embassy of Spain in Ankara. He specializes in business internationalization, trade promotion and EU trade and competition policy.

Speakers:

F. Jaber Bringas
President of Uniport Bilbao

F. Jaber Bringas' 50-year career combines international business development with road, air and sea logistics expertise. He has held several high-profile positions such as co-founder of Sparber Transport S.A., Vice President of ATEIA Bizkaia and is the current President of UniportBilbao.

Lluis París
Head of the Automotive, Ro-Ro, SSS & Bulk Department, Port of Barcelona

Lluís París is the Head of Automotive, RoRo, Short Sea and Bulk Division for Port de Barcelona. He works in the commercial side and participates in defining the Port strategy on cargo volumes, connectivity, quality, and pricing of services.

Görkem Öner
Sales Director of Tiba Turkey Taşımacılık

Görkem Öner is Sales Director at TIBA Turkey Taşımacılık. He has more than 15 years of experience in international logistics and has worked at DSV Air & Sea and Globelink Unimar, managing key accounts across air, sea and road freight.

ATLAS LOGISTICS AWARDS

One of the long-established events of the logistics industry, the Atlas Logistics Awards will be presented for the 17th time in 2026 as part of logitrans.

The awards recognize companies, executives and projects across various categories, highlighting sectoral achievements, innovative projects and contributions to the logistics industry. In 2025, a total of 108 candidates, organizations and projects were evaluated, with 26 awards presented to their recipients.

The 17th Atlas Logistics Awards will once again bring together outstanding achievements and leading figures of the logistics industry under the roof of logitrans.

RESILIENCY AND AGILITY: FUTURE-PROOFING TURKIYE'S AUTOMOTIVE LOGISTICS AGAINST REGIONAL AND GLOBAL DISRUPTIONS AND PANEL DISCUSSION

Daniel Harrison will give a short introductory presentation of recent automotive logistics business intelligence and conclude by placing Türkiye within the context of the European automotive logistics market amid wider macroeconomic and geopolitical forces, taking into account:

- Overview of European Automotive Logistics Market Report 2026-2036
- Summary of Automotive Inbound Logistics Survey 2026
- Outline of Türkiye Automotive Logistics Analysis 2026

The automotive supply chain faces unprecedented pressures from shifting global trade policies, logistics capacity shortages and freight route disruption, with Türkiye's international and domestic logistics no exception.

This session explores how OEMs and Tier-1 suppliers based in Türkiye can maintain their strong growth in production, exports and sales by evolving their logistics strategies, shifting to dynamic, digitally integrated freight networks and strong collaboration with logistics partners that can balance resilience with efficiency

Key topics to be discussed at this session include:

- How vehicle manufacturers and suppliers in Türkiye are adapting logistics networks for greater resilience and flexibility
- Logistics and freight capacity requirements and developments to support automotive production, exports and sales
- Leveraging AI and predictive intelligence to transition from reactive monitoring to autonomous risk management
- Adapting logistics to support changing requirements for new vehicle technology, new players and supply chain flows
- Strengthening collaboration with logistics providers for long-term success and investment in Türkiye

Moderator:

Riad Mannan
Senior Content Producer,
Automotive Logistics

Speakers:

Sefa Erdinç Dinçer
Head of Planning & Logistics
TOFAŞ

Sefa, Head of Planning & Logistics at TOFAŞ, oversees supply chain and production planning. With experience at Stellantis and CEVA, he specializes in operational excellence, logistics strategy and sustainable growth.

Fatih Kılınç
Logistics Activities Leader
Ford Otosan

Fatih Kılınç, Logistics Activities Leader at Ford Otosan, is an ITU-trained industrial engineer with over 20 years of experience in material and vehicle logistics, supply chain sustainability and operational excellence.

Daniel Harrison
Senior Automotive Analyst,
Automotive Logistics

Daniel Harrison has 20 years of experience in automotive business intelligence and leads the business intelligence unit at Automotive Logistics. He produces forecasts, whitepapers and analysis on key automotive industry issues.

WOMEN BEYOND BORDERS: WOMEN IN INTERNATIONAL LOGISTICS

ORGANIZER: *THE WOMEN'S WORKING GROUP*

International logistics is a vast and multifaceted ecosystem that connects different parts of the world, transcends borders and geographical boundaries, and ensures the continuity of global trade. Every link in this ecosystem involves different areas of expertise, operational processes, and human effort.

From road, maritime, rail, and air transport to supporting services such as customs clearance and warehousing, every segment plays a critical role in ensuring the uninterrupted operation of the international supply chain. At every stage of this extensive network, women contribute through their dedication, expertise, experience, and leadership.

As the Women's Working Group of the International Transporters' Association (UND), we develop and implement various projects aimed at increasing the visibility of women working in the international logistics sector, promoting equal opportunities in the workplace, and supporting women's employment. In line with these objectives, we are delighted to bring together distinguished female logistics professionals from various segments of our industry, including those actively involved in non-governmental organizations, on a shared platform through this panel.

Through our panel, "Women Beyond Borders: Women in International Logistics," we aim to strengthen women's representation in the industry, provide a platform for sharing experiences, address common challenges and opportunities, and contribute to ensuring that women play a more prominent role in shaping the future of logistics.

We firmly believe that a strong, sustainable, and uninterrupted international supply chain cannot be achieved without the active participation of women.
