international transport
logistics exhibition

logitrans Transport Logistics Exhibition, one of the important meeting points of the international logistics and transportation sector, continues to show its central role in the sector once again. In its 17th year, 203 exhibitors from 18 different countries took part in the exhibition, with special pavilions from countries such as Germany, Belarus, Czechia, Spain, Russia and Greece offering exhibitors and visitors the opportunity to explore different dimensions of international trade. This broad participation demonstrates that the exhibition not only creates commercial opportunities, but also provides a powerful platform for networking, sharing innovative solutions and keeping up-to-date with industry developments.

International logitrans Transport Logistics Exhibition has once again proved its international strength this year. We came together with sector professionals from all over the world. There was an incredible increase in numbers compared to last year.

Hüseyin KIYAK
Assistant Director of OREGON Teknoloji

We attended logitrans Exhibition for the 2nd time and we were rather pleased with the connections we made, the new business ideas and strategies we acquired, and the new collaboration opportunities we encountered. This exhibition contributes more and more every year to the growth of our business by providing insights into new markets and establishing new collaborations.

Kristina SHTEREVA
Marketing Director of Discordia

With the vision of the 4th generation, we continue to maintain our 88 years of knowledge and experience. As Eyüp Lojistik, we participated for the first time in logitrans Exhibition, which was held for the 17th time this year. We came together with our customers, suppliers, and industry stakeholders for three days and had pleasant discussions and exchanged ideas. We were honored and delighted to host them at our stand. This exhibition gave us a valuable opportunity to further develop our enterprises and investments that add value to our country by contributing to Turkish exports, imports, and transit trade.

Eyüp BARTIK
Chairman of Eyüp Lojistik

logitrans Exhibition is one of the most important logistics exhibitions in Türkiye and it has been a meeting point and the beating heart of the sector this year once again. We were very pleased with the number of exhibitors and visitors. We are happy to have met our expectations from this fair, where we participated for the first time with our Renault Trucks and Otokar brands. During the fair, we had the opportunity to exhibit our new model vehicles and present them to the sector. In addition to hosting our existing business partners and customers at our stand, we had the opportunity to establish new collaborations. The meetings, exchanges of information, and sectoral innovations during the fair were very valuable both for us and our sector. Seeing logitrans' contributions to the advancement of the sector motivated us.

Mesut SÜZER
General Manager of Koçaslanlar Otomotiv

logitrans Exhibition was very beneficial as it allowed us to better understand the demands of Turkish companies in the transport and logistics industry ecosystem. We were also able to interact with a large number of visitors. It was also an exceptional exhibition for us in terms of creating opportunities for us to explain the capabilities and diversity of French ports.

Audrey PORTEFAIX
Project Manager of Medlink

The International logitrans Transport Logistics Exhibition exceeded our expectations this year once again. The diversity of visitors and the richness of the discussions were highly valuable. This event is essential for us as it is where we connect with key stakeholders and discover new opportunities in the logistics industry.

Onur TALAY
TCEO of Talay Logistics

exhibition and conference

While Türkiye has taken important steps to become a hub, the pulse of the air cargo industry will again be taken at logitrans hosts conference and meeting programs for the air cargo sector. The industry's most important players regularly take part in the trade fair. air cargo Türkiye, which is a special part of logitrans, will be the ideal event of the year to follow up the developments in this highly dynamic industry.

Developing and changing modes of transport have not affected the popularity of road transport. The commercial vehicle sector, which enables the flow of transport on roads, is still a vital part of the industry. Key players of the truck, trailer and light commercial vehicles industries are coming together at this special event program at the only logistics fair of Türkiye, one of the largest commercial vehicle manufacturing countries in Europe.

exhibition and conference

rail cargo Turkey, will carry the railway transportation to the focus point again. This special section, which is the latest product of logitrans' motivation to develop the logistics sector in all respects, is a candidate to be the favored place where international sector leaders and pioneers of railway transportation will come together in 2025. You can follow up the latest developments from rail transportation industry which shows significant improvements each year in rail cargo Türkiye.
